

Lord of the Rings Technical Editing Review:

1. The Council of Elves, Dwarves and Men have articulated a plan for a trip, that should destroy the Ring.
2. The One Ring, is the Ruling Ring.
3. Its power lays in it's ability to corrupt the weak, and the strong.
4. To the council came; elves, dwarves, hobbits and men.
5. Hobbits can walk almost as quietly as elves, eat quite a lot, and resisting magic well.
6. Frodo was Bilbo's adopted heir but he was also a blood relation.
7. By trying to destroy the Ring, Sauron was put out of his reckoning.
8. The Ring was forged in the magma of Mount Doom. Therefore destroying it required a return to the volcano.
9. The Ring offers power according to the stature of the possessor, the hobbits never gained more from it than turning invisible.
10. The elves made their lives in Middle-earth more bearable by using the Three Rings of the Elven Kings, which healed, aided understanding, and motivated.
11. The light weight of Frodo's mithril mail avoids blows.
12. Its a huge effort just to loan the Ring for a moment.
13. Defending against Gondor was well within Mordors capability, however, getting the troops to the gate required slave drivers.
14. Destroying the One Ring saves the world from a great evil. Although the greatly beneficial Elven Rings are rendered powerless along with it.
15. The use of the Ring which makes the wearer invisible eventually causes weaker owners to turn into wraiths.
16. We can put the Shire back on track to controlling environmental damage caused by industry with stronger authority.
